Turning imaginations of homes into reality

ZBOM HOME COLLECTION CO., LTD

Founded in 1998, ZBOM HOME COLLECTION CO., LTD. is a pioneer of the kitchen cabinet industry in China. We specialize in research, design, fabrication and cabinetry sales. With over 20 years of development, ZBOM is now one of the top kitchen cabinet manufacturers in the industry.

ZBOM has 5 large-scale kitchen cabinet manufacturing bases in China with an area of 4,740,000 SF, capable of achieving an annual capacity of 6,000,000 cabinet sets. Our facility utilizes the German HOMAG intelligent automatic production line, providing us the ability to supply you with high-precision and high-quality products. ZBOM has established global strategic partnership with more than 20 top brand suppliers, including Blum, Hettich, and Renolit. We purchase materials directly abroad to ensure consistently high-quality components. ZBOM currently has more than 1,800 showrooms and operates with a professional team of 20,000 staffs. We provide customized services including integrated design, installation, and post-sale services. With the advantage of cutting-edge technology, our large scale, and fully trained sales network, our comprehensive strength positions us among the leaders in the industry.

We have begun exportation since 2008 and have already completed hundreds of projects globally. Through many years of experience, we have accumulated expert knowledge in exporting kitchen cabinets, vanities, and wardrobes at competitive price points to all commercial markets world-wide.

We highly value relationships with our customers and we hope to be of service to you in the near future.

Mandheling

The combination of coffee-colored solid wood veneer and dark grey glass exudes a subtle sense of luxury and mystery. One can't resist the temptation to explore. The movable bar counter provides a dynamic and extended feel to the island, achieving a perfect balance between aesthetics and functionality.

Bevel front 45°

Q27 bevel front 45° splicing
 The floor cabinet uses the beveled front of the Q27 countertop to provide more sufficient space for the buckle.
 While meeting the ultra-thin visual perception of the countertop, the door opening is more convenient and comfortable.

Kazamoto

The combination of the kitchen of the restaurant makes cooking simple and fully caters to the lifestyle of young people to create a "light meal" space, enjoy the fun of cooking with the family and taste the delicious life together.

The design of high and low countertop
According to the ergonomic design, washing and cooking do not hurt the waist,
and the kitchen time is more comfortable. Exquisite minimalist lines and
undulating waves create a dynamic visual picture for the space.

Slide sliding door type back wall system

The combination of back wall system and sliding door creates integration of storage and display.

The cabinet is equipped with a metal frame, and the luminous backplane behind it is embellished, making the whole space more flexible.
